

INTERPACK 2020

7 -13 May - Düsseldorf Germany

World Largest Expo of
**Packaging Machinery-Materials-Systems for food, beverages,
confectionery, bakery, pharma, cosmetics, non-food and industry**

by Om Prakash – Director, InORBIT Tours Pvt. Ltd.
Hon. Ambassador in India of Messe Düsseldorf Fairs

Mumbai, 9th January 2020

Once again **Interpack 2020** will be staged at Düsseldorf Germany from 7 -13 May 2020. More than **2866** exhibitors from over 60 countries and over **180,000** professional visitors are expected to meet to learn about the latest INNOVATIONS in Machinery for producing packaging, Confectionery and Bakery goods as well as packaging of all material classes, said Mr. Om Prakash-Director InORBIT Tours Pvt. Ltd. in the Press note issued at Mumbai.

Interpack is the essential event for the **food, beverage, confectionery, bakery, pharmaceutical, cosmetics, non-food and industrial goods sectors**. No other trade fair in the world represents the entire supply chain. And at no other trade fair does the packaging industry provide all industry sectors with tailored solutions and innovative designs based on such a variety of materials.

Facts & Figures of Interpack 2017

- **Number of visitors: 170500 from 168 countries**
- **Number of exhibitors: 2865**
- **Exhibition space: 175000**

- Services

Interpack is a magnet for the target groups:

- Food
- Beverages
- Confectionery and Bakery products
- Industrial goods
- Pharmaceuticals
- Cosmetics
- Consumer goods (non-food)

Industry 4.0 – From Vision to Reality

The digital transformation towards networked production environments in terms of Industry 4.0 (I4.0) and/or the Internet of Things (IoT) is gaining momentum. Numerous applications from the areas of product and process monitoring, labelling technology, packaging, logistics as well as maintenance and repair show already today the optimisation potential that this transformation to the Internet of Things holds. These “things” are sensors, RFID chips (Radio Frequency Identification), devices, machines and plants. In future, these “things” are not only expected to deliver information on all important process and system conditions independently and continuously but they are also expected to communicate with each other via the Internet and intervene in manufacturing processes to correct and optimise them without human intervention.

Innovationparc Packaging

Innovationparc Packaging is a unique trade name of interpack and the show’s own forum for special themes of the future.

Visitors and exhibitors meet here for an exchange of creative ideas and the development of visionary ideas on basic social, economic and ecological themes.

innovationparc and the SAVE FOOD theme: The participating SAVE FOOD members, companies and associations from all stages along the value chain are showcasing their solutions for avoiding food loss and food waste. The special show presents practical approaches from areas such as food processing, packaging design, packaging materials and machine construction to fight the problem in concrete ways. An additional exhibition highlights the dimensions of international food losses along the food value chain.

The major segments for visitors at Interpack 2017 were:

- A large proportion—78 percent—of visitors were interested in **process technologies and machinery for packaging** as well as packaging production.
- The second largest segment at Interpack **PROCESSES AND PACKAGING**, packaging materials and packaging.
- Machinery and process **technology for confectionery and bakery goods**
